The new compact multi-talent:

ECOBULK MX 560

zontal tubes and a large label plate, it offers superior stability and generous space for product labels in daily use. The pallet size and compact design ensure optimum utilization of the existing storage and transport space.

As a safe and highly efficient packaging solution, the ECOBULK MX 560 is perfect for all applications where smaller containers are an advantage. It impresses with its low container weight and easy handling, enables low capital commitment and short shelf life, and thus also reduces the risk of product spoilage due to ageing or oxidation processes.

Through its wide range of equipment variants, the MX 560 proves to be a true multi-talent. In the FOODCERT or CLEANCERT version, it fulfils the highest cleanliness and safety requirements when used with food or in technical areas. The options also include use in Ex zones or an integrated EVOH permeation barrier. For use with agrochemicals, the container can be equipped with our Check Valve and the G2 BreatherPlus plug. Even stirring processes without opening the container are possible – with the pre-installed disposable stirrer, SCHÜTZ IMPELLER.

As a safe and highly efficient packaging solution, the ECOBULK MX 560 is perfect for all applications where smaller containers are an advantage.

With the ECOBULK MX 560, SCHÜTZ is expanding the successful MX model series with a 560 litre (150 Gal) version. The new smallest SCHÜTZ IBC uses the same pallets as our proven 1,000 and 1,250 litre models – with a significantly lower grid cage height. With 4 hori-
