

AkzoNobel honours SCHÜTZ VASITEX as best supplier

SCHÜTZ VASITEX has won the Supplier Collaboration Award as AkzoNobel's best supplier. With this award, the paints and coatings manufacturer recognises outstanding performance in the areas of quality, delivery, cost, innovation and sustainability.

A kzoNobel is one of the largest paint and coatings companies in the world. Since 2009, with the start of our IBC production in Brazil, our Brazilian subsidiary SCHÜTZ VASITEX has been supplying AkzoNobel with IBCs, including those suitable for EX zones. These IBCs are used in various industrial sectors, for example for the transport of car refinish paints, automotive, aircraft and marine paints as well as industrial paints, especially for beverage cans.

SCHÜTZ VASITEX excelled in criteria such as completeness and punctual delivery with above-average reliability. We also scored with exceptionally high quality in terms of product-related environmental requirements and compliance with international

legislation. Our progressive pricing policy and innovation initiatives also received top marks. Last but not least, our outstanding EcoVadis sustainability score was highly recognised by the customer.

The award was presented at the annual Supplier Collaboration Award online event, attended by AkzoNobel CPO Jan Paul van der Velde and Daniel Campos, local president and member of the Executive Committee.

We are very proud to have won the Best Supplier Award. It recognises our continued commitment to high quality and safe packaging solutions.
